Calling BP to Account

TAR SANDS, DEEPWATER HORIZON AND BEYOND...

You are invited to a public meeting in advance of BP's AGM, that will bring together a diverse coalition of individuals and organisations who are working together to call BP to account for the social and environmental impacts of their activities around the world.

Join First Nations from Canada, fishermen and women from the Gulf of Mexico, shareholders, NGOs, lawyers and activists for an evening of information sharing and strategising, on the eve of BP's Annual General Meeting (14th April).

A chance to listen to first-hand accounts of how WBP's decision to go into the Alberta tar sands will affect indigenous communities, the local environment and the global climate. A chance to hear from those whose livelihoods have been destroyed by the Deepwater Horizon catastrophe. And a chance to build stronger links between different campaigns and strategies working to restrain the destructive activities of one of the world's oil giants.

Please RSVP to info@no-tar-sands.org
